November 17, 2005  
FOR IMMEDIATE RELEASE

## **Kris Kwalik speaks to American Business Women's Association**

Kris Kwalik, President of The Rodin Consulting Group, LLC, delivered the dinner speech for the League City Charter Chapter of The American Business Women's Association. The program was entitled: "The APB on Public Speaking."

In the "All Points Bulletin on Public Speaking" the participants discovered that by knowing your audience, planning and preparing, and being yourself, they could make any speaking opportunity into a memorable event. So every speaker can be a great speaker if they remember:

- A – audience
- P - planning and preparing and
- B- be yourself.

Kris taught that it is not necessary to be "the expert" in order to deliver an "expertly" crafted speech. She also talked about how to alleviate the common fears associated with public speaking situations.

Kris Kwalik is the Founder and President of the Rodin (ro-dan) Consulting Group. Her passion is bringing forth the leadership potential that exists in all of us, so that we may experience career and personal success.

Dr. Kwalik is available for speaking engagements throughout the greater Houston-area. Topics that are often requested are: "The DNA of Leadership" and "The 5 Roles of a Leader."

# PRESS RELEASE

*The Rodin Consulting Group, LLC.* is a Houston-based leadership training and management development firm. Rodin Consulting is committed to your continued growth and success through the development of leadership talent throughout your entire organization. Our client-intimate, outcome-focused approach, engages your organization in a process of self-discovery, through the use of assessment tools, accountability groups and surveys.

Practical and innovative solutions are executed that address both those issues that are most urgent, but also those that will create a lasting positive impact on long-term business results.
